Please give accurate roof dimensions

Internal upstand dimensions:

width	projection
-------	------------

Max length 3000mm. Max glass area 2.5m²
Max square size 1400mm x 1400mm

MEASURING

How to measure

Survey Size = Internal Upstand

BLIBY PLASTICS luma

1 - Luma to be pitched along height of upstand (shortest side).
2- If installed pitch is to exceed 2.5 deg, Bliby Plastics must be informed in order to perform adjustments to Luma size.
3- Upstand width **must not exceed 80mm** including roofing membrane to not compromise drainage system

Upstand requires minimum 2.5 degree pitch
